SUMMARY

B.Tech graduate with hands-on experience in **Manual and Automation Testing.** Executed web application testing for OpenCart and Amazon projects, including requirement analysis, test case design, defect reporting, regression testing, and automation using **Selenium web driver.** Experienced in backend validation using **MySQL** and using **JIRA** for defect tracking. Strong understanding of **SDLC/STLC** and quality assurance processes.

SKILLS

Testing & QA: Manual Testing, SDLC, STLC, Test Case Design, Regression Testing, Smoke Testing, Bug Reporting

Automation: Selenium WebDriver, Python, PyTest, Page Object Model, XPath, CSS Selectors

Database: MySQL, Data Validation, Joins, Subqueries, Aggregate Functions

Tools & Technologies: JIRA, Git, GitHub, PyCharm, VS Code, Postman

PROJECTS

Open Cart Application – Manual Testing

- Executed end-to-end **manual testing** of OpenCart e-commerce application, including Login, Registration, Product Search, Cart, and Checkout workflows.
- Designed and executed **80+ test cases** based on functional requirements document, identified and reported **30+ defects** using **JIRA.**
- Conducted **Regression, Smoke, and Functional Testing** across multiple builds to ensure application stability.
- Performed backend validation using **MySQL** to verify data consistency between frontend and database.

Amazon Website – Automation Testing

- Automated key workflows including Login, Product Search, Add to Cart, and Checkout using **Selenium WebDriver and Python**.
- Developed **reusable automation scripts** using **Page Object Model (POM)** to improve maintainability and reduce redundancy.
- Handled **dynamic web elements** using XPath, CSS selectors, explicit waits, alerts, and exception handling to ensure stable test execution.
- Integrated scripts with **PyTest framework** for structured execution and reporting, reducing **manual regression effort by 60%**.

EXPERIENCE

Data Science Intern | Skilldzire Technologies **May 2024 – July 2024**

- Validated and cleaned **200,000+ records** using SQL and Python, ensuring **data accuracy and integrity**.
- Performed **backend data verification and testing** to ensure dashboard and report correctness.
- Conducted **functional checks** on data workflows and pipelines, identifying inconsistencies and logging defects for resolution.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering from CBIT, Proddatur **CGPA: 7.78/10** | 2021 – 2025

Intermediate from Sri Gayathri Junior College, Badvel **Marks: 950/1000** | 2019 – 2021

SSC from Fathima English Medium High School, Badvel **CGPA: 10/10** | 2018 – 2019

CERTIFICATIONS

- Programming with Python 3.X
- SQL certificate
- Data Analytics with Python
